RE: Jaimine Johnson; DRK and Company

To whom it may concern.

As a tenant of DRK and Company since 2001, I have had the distinct pleasure of working directly with Jaimine Johnson over the years and have found her professionalism and business acumen to be absolutely exceptional in the real estate industry.

In a rapid growth mode, our business required a move to double our manufacturing space requirements in 2009. We surveyed the market and negotiated with a number of potential landlords in our search for new space. In the process, Jaimine excelled and clearly separated herself from the 'competition' by investing her time and interest to learn our business, understand our specific needs, and develop a complete proposal that was simply a compelling case for our business. The final package included an extensive amount of tenant improvements specific to our needs, and after the signing, it was certainly rewarding to see her personally vested and on site regularly during the construction build-out period, ultimately through our move to the new space, and subsequently with follow-ups more than sufficient to maintain a healthy and productive business relationship.

After dealing with a number of developers and landlords, I have been most impressed personally with Jaimine and without question, highly recommend her services to prospective new tenant clients.

Best Regards,
